

Maintenance after use | PTR50 | 21371

Page 1 of 2

Maintenance recommendations:

- **Wear full protective gear during maintenance.**
- **Always act according to the safety instructions as supplied with each tool!**

Necessary equipment: Soft cloth.

After use (every time)

Step 1

- Check:
 - Its general condition
 - Oil leakage
 - Damages that can interfere with functioning or safety
 - Dirt: clean if necessary
 - Readability of the identification / safety label, replace if unreadable

Step 2

- Check functioning of the control handle by operating the tool. (opening, closing and neutral)
- Check direct response of the Power Unit
- Check smooth turning of the control handle
- Check that control handle comes back to neutral when not operated

Step 3

- Check the protective cover on the dead mans' handle:
 - Is in place
 - Undamaged
