

Z375

Z-LIFT

Command Light's Z-Lift improves visibility and increases safety by elevating a vehicles warning lights and traffic arrows above the roofline of approaching traffic.

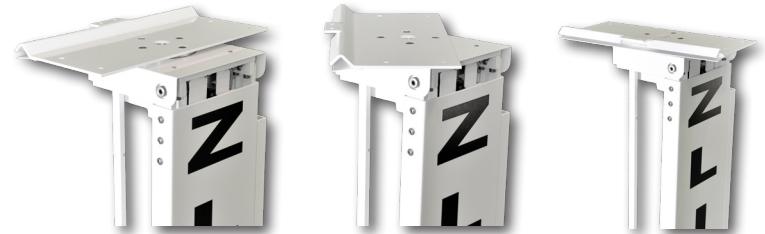

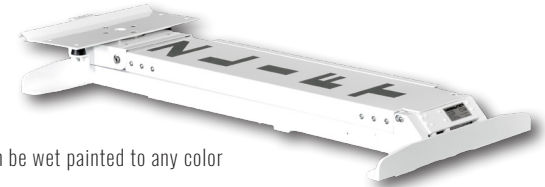

The Z-lift elevates a light bar 40" (1,016 mm) and is able to rotate the light bar 0° - 90° left or right in order to be positioned in the face of traffic no matter how the vehicle is parked. With the press of a button the lift can be auto-deployed to be square or rotate 45 or 90° in order to save time.

The Z-Lift features the same quality as all other Command Light products and comes with the industry leading five-year warranty. Constructed from aluminum and stainless steel alloys, the Z-Lift is an investment in safety that will last for years.
